PHYSIOLOGY AND BIOCHEMISTRY

In vivo and in vitro effects of nickel and cadmium on the plasmalemma ATPase from rice (*Oryza sativa* L.) shoots and roots
by R. Ros, A. Morales, J. Segura and I. Picazo (València, Spain) 1–6

Characterization of two *Sclerotinia sclerotiorum* polygalacturonases with different abilities to elicit glyceollin in soybean
by F. Favaron, P. Alghisi and Paola Marciano (Padova, Italy) 7–13

Circular dichroism and ^{13}C nuclear magnetic resonance spectroscopy of pennisetin from pearl millet
by M.N. Sainani, V.K. Mishr, V.S. Gupta and P.K. Ranjekar (Bangalore, India) 15–22

Effects of pesticides on oxidative phosphorylation and electron transfer in potato tuber mitochondria
by J.-C. Pireaux, P. Dizengremel and B. Botton (Vandoeuvre, France) 23–30

Sulphur dioxide and carbon dioxide induced changes in soybean physiology
by R. Sandhu, Y. Li and G. Gupta (Princess Anne, MD) 31–34

Studies on the root control of non-nodulation and plant growth of non-nodulating mutants and a super-nodulating mutant of soybean (*Glycine max* (L.) Merr.)
by A. Mathews, B.J. Carroll and P.M. Gresshoff (Canberra, Australia) 35–43

GENETICS AND MOLECULAR BIOLOGY

Silene plastocyanin is fully functional in transgenic tobacco
by D. de Boer, A. Wilmink, A. Lever, F. Cremers, P. Hooykaas and P. Weisbeek (Utrecht and Leiden, The Netherlands) 45–54

The preparation of high-molecular-weight DNA from rice and its analysis by pulsed-field gel electrophoresis
by S. Hatano, J. Yamaguchi and A. Hirai (Nagoya, Japan) 55–64

Zygote and vegetative cell wall proteins in *Chlamydomonas reinhardtii* share a common epitope, $(SerPro)_x$
by J.P. Woessner and U.W. Goodenough (St. Louis, MO) 65–76

Effects of the introduction of *Agrobacterium rhizogenes rol* genes on tomato plant and flower development
by A.C. van Altvorst, R.J. Bino, A.J. van Dijk, A.M.J. Lamers, W.H. Lindhout, F. van der Mark and J.J.M. Dons (Wageningen, The Netherlands) 77–85

CELL AND TISSUE STUDIES IN VITRO

The effect of genotype, cold storage and ploidy level on the morphogenic response of perennial ryegrass (*Lolium perenne* L.) suspension cultures
by J. Creemers-Molenaar, J.P.M. Loeffen, M. van Rossum and C.M. Colijn-Hooymans (Oosterhout, Nijmegen and Wageningen, The Netherlands) 87–94

Pigment production in hormone-autonomous cell cultures following somatic fusion of petal and tumour protoplasts of *Petunia hybrida*
by R. Phillips and N.J. Darrell (London, UK) 95–102

Somatic embryogenesis in *Arachis hypogaea* L.: genotype comparison
by P. Ozias-Akins, W.F. Anderson and C.C. Holbrook (Tifton, GA) 103–111

Book Review 113

REVIEW ARTICLE

Genes that regulate plant development
by R.A. Aeschbacher and P.N. Benfey (New York, NY) 115–126

PHYSIOLOGY AND BIOCHEMISTRY

The effects of carbon starvation on cellular metabolism and protein and RNA synthesis in *Gerbera* callus cultures
by F. Tassi, E. Maestri, F.M. Restivo and N. Marmiroli (Parma, Italy) 127–136

Stimulation of 1-aminocyclopropane-1-carboxylic acid-dependent ethylene production in detached rice leaves by methyl jasmonate
by C.M. Chou and C.H. Kao (Taiwan, Republic of China) 137–141

5-Bromodeoxyuridine inhibition of cytokinin induced radish cotyledon expansion
by J.C. Thomas and F. Katterman (Tuscon, AZ) 143–148

Relationship between polysaccharide synthesis and cell wall loosening in auxin-induced elongation of rice coleoptile segments
by T. Hoson and Y. Masuda (Osaka, Japan) 149–154

Thaumatin-like pathogenesis-related proteins are antifungal
by A.J. Vigers, S. Wiedemann, W.K. Roberts, M. Legrand, C.P. Selitrennikoff and B. Fritig (Denver, CO; Colmar and Strasbourg, France) 155–161

Merocyanine 540 as an optical probe to monitor the effects of culture filtrates of *Phytophthora cactorum* on apple cell membranes
by B. Mezzetti, R.H. Zimmerman, C. Mischke, P. Rosati and F.A. Hammerschlag (Beltsville, MD; Bologna Italy) 163–167

GENETICS AND MOLECULAR BIOLOGY

Synthesis and deposition of coixin in seeds of *Coix lacryma-jobi*
by M.L.N. Targon, L.M.M. Ottoboni, A. Leite, D. Ludevid, P. Puigdomenech and P. Arruda (Campinas, Brazil; Barcelona, Spain) 169–180

Sequence of a cDNA clone encoding the enzyme myrosinase and expression of myrosinase in different tissues of *Brassica napus*
by A. Falk, J. Xue, M. Lenman and L. Rask (Uppsala, Sweden) 181–186

Double-stranded ribonucleic acid in 'Barsoy' barley
by I.A. Zabalgogeazcoa and F.E. Gildow (University Park, PA) 187–194

Isolation and characterization of three monoclonal antibodies specific for pistil and stamen tissues of tobacco (*Nicotiana tabacum* L.)
by L. Cañas and R. Malmberg (Valencia, Spain; Athens, GA) 195–203

CELL AND TISSUE STUDIES IN VITRO

Cryopreservation of immature embryos, embryogenic callus and cell suspension cultures of gramineous species
by S. Gnanapragasam and I.K. Vasil (Gainesville, FL) 205–215

Callus formation and scanning electron microscopy of plantlet regeneration in African rice (*Oryza glaberrima* Steud)
by E.A. Brisibe, H. Miyake, T. Taniguchi and E. Maeda (Nagoya, Japan) 217–224

Erratum 225
